A contemplation of the wrongs of the Irish people always produces a horror as terrible as the reality of a night mare. But the American people will never cease to listen to the old story and to sympathize with the wronged and oppressed people of Ireland. Mr. R. D. Locke, a bitter Republican writer who has achieved much reputation over the signature of "Nasby," has recently returned from Ireland, and we give in another column his indictment of the English government. He shows the system of slavery to which Ireland has been subjected for over seven hundred years. It is not surprisin that the American people should feel so much interest in the fate of a race of people who have contributed so much to build up and strengthen the government of the United A week ago Senator Bayard, in his remarks on the death of Mr. O'Conner, of South Carolina, said: "Mr. Presiden if the names of the men of Irish birth and blood who have dignified and decorated the annals of American history were to be erased from the record, how much of the glory of our country would be subtracted? In the list of American statesmen and patriots, theologians and poets, soldiers and sailors, jurists and orators, what names shine with a fearful-India. The whippingpost is still retained in the correctional system of Delaware and one or two other States for certain atrocious offenses, and the effect is found to be extremely salutary. It has lately been restored in the English prisons after a long period of disuse, and many years ago, when a garroting mania raged in the British metropolis, it defied all repressive ition. But the primary object of the penal laws and discipline is to prevent rather than punish crime. It is more economical, as well since a culprit flogged at the whipping-post

THE PREVENTION OF POLYGAMY. The country has, of late, heard and read a good deal about the infamy of polygamy, and a general opinion appears to exist that something ought to be done about it." But what? On that point there is a great silence. The evil is acknowledged, but all the ingenuity of the American mind has not yet proposed an obvious and easily-applied remedy. Vermin Destroyer

DISINFECTANT,

stroying Bed Bugs, Cockroaches, Ants, Moths and Parasites of all kinds.

The apparatus for generating the steam is an ordinary nursery lamp holding half a pint of the Medicated Fluid, with a tube at the top to direct the Medicated Steam upon any

point infested with insects. It is heated with a small spirit lamp beneath the boiler. For Dwellings, Hotels, Steam Ships, Restaurants &c., nothing ever discovered equals this ap-pliance. It is harmless to human life; is in-

expensive and simple in its use. While a most potent means for destroying Vermin it is the best disinfectant known and may be

most effectually used to prevent the spread of contagious diseases, such as Yellow Fever

Scarlet Fever, Typhoid Fever, Diptheria, Small Pox, &c. One trial is the best proof of the great advantages of this over all other appliances. For sale by Draggists and Gen-eral Dealers.

The Feeling Generally Bearish - The

New York, February 15.—The feeling in Wall street is generally bearish, though a few say the majority are usually wrong, and it would not be surprising to see a short retreat made to rally the market. The constitutional bulls were much dis-couraged yesterday and a good deal of long stock was thrown overboard. Some took the ground that fresh liquidations had set in, while others said the decline in grain and cotton was depressing stocks and would con-tinue to hurt the market.

The reports of foreign troubles circulated yesterday appear unfounded. None of the oreign bankers have unfavorable news; o

the contrary, they said the American gold arriving at London had produced a good effect, money was easy and settlements to-day would be made without difficulty. A London house bought considerable Erie n this market yesterday. The German houses reported nothing doing in stocks, but said Amsterdam was

DETROIT, MICH., February 15 .- A very bold and successful robbery was committed shortly before noon in the county treasurer's office, in the city hall; Treasurer Cresley alone being in the office at the time, which fact was doubtless fully understood before hand by the thieves. One man went in and desired to pay taxes and went to the window further from the door, calling forward a number at that window. While the treasurer was hunting up the

Patti III at Cincinnati CINCINNATI, February 14.—The opera of CINCINNATI, February 14.—The opera of Faust was presented by the Mapleson company in place of the Patti concert, which had been postponed till Thursday afternoon on account of the illness of Patti. Much interest is felt in Patti's condition. She keeps aloof from reporters, but it is said by others who have seen her, that she is doing Union Stock-Yards Company.

CHICAGO, February 14.—The Union Stock-lards Company, to-day, re-elected the old flicers. No issue of stock was made, and some of the officers deny that there will be any issue. The statements on this point are sent out regarding the issue, and some of the United States Consul's Report.

Ms. Walter F. Adams, of Westboro, Massachusetts, writes: "For years I suffered the horrors of dyspepsia and indigestion. They seemed to weaken every organ of life, and completely shattered my nervous system. At high when I lay down I felt I could not live until morning. Heartburn pained me most terribly. I tried Brown's fron Bitters; it suited my case precisely, and now my stomach digests any kind of food, and now my stomach digests any kind of food, and my sallow complexion and other symptoms of ill-health are all gone, and at night I enjoy ofreching dreamless slumber."
